## NEWS OF FIGHTERS

The following letter was received by Councilman and Mrs. L. F. Williams from their son, Sgt. L. E. Williams on active duty in Europe: Friday, April 13

Dear Folks:

Well, here I am again. I hope you are all well and not feeling too badly about the President's death. It sure was a shock to us over here and I imagine it must have been doubly shocking to you at home. I guess our family never saw exactly eye to eye with his policies, but I'm sure we all have always felt deep down that he was a great man. His death won't have anything to do with the rest of the war I am sure, but it can have a lot to do with the peace. Of course in our form of government, no one person or body of people are indispensable, but I can't help feeling that he could have influenced peace conferences much more than anyone who will take his place. Anyways, whatever later affects his death will have, it certainly had a saddening effect on most of the world today.

Well kids, I hope I haven't bored you but I thought you'd like to know how I feel about it over here. So long. Lots of love. LARRY.

## New Signals Recommended At Marin Crossing

Following is a communication received from N. A. Wood, senior transportation engineer of the State Railroad Commission: San Francisco, Calif. April 27, 1945

Mr. Ward Hall, Supervising Transportation Engr., Building.

As a result of the complaint of Mrs. Kathie Zahn, 907 Santa Fe Avenue, Albany, regarding the in-

adequacy of the protection at the crossing of Marin Avenue with the main track of The Atchison, Topeka & Santa Fe Railway, an inspection was made on Thursday evening, April 26. Mr. H. R. Hart, Division Engineer, Mr. W. F. Douglas, Signal Supervisor Valley Division, and Mr. C. M. Morse, Maintainer, representing the Santa Fe, accompanied Mrs. Zahn and I on the inspection.

This crossing is now protected by Standard No. 4 upper quadrant wigwag, center of the street type of installation, Standard No. 1 crossing signs and advance warning signs not reflectorized. The wigwag was installed about 1924. Our records show four accidents since January 1, 1926, involving collision between a vehicle and a train, and we have reports of two instances where vehicles ran into the signal. The base of the signal indicates that there have probably been more than two such accidents. The majority of the accidents occur at night.

During the inspection last evening the signal was set in operation and we approached the crossing in a car from both directions in order to ascertain the directiveness of the warning indication. While this type of protection conforms with the Commission's standards and was, I understand, installed as a result of recommendations by the Commission's engineers, in my opinion the signal is not as arrestive as some of the more modern types. Background conditions, particularly at night, tail lights of automobiles, and the glare of opposing headlights tend to reduce the effectiveness of the signal, and I am of the opinion that two side of the street flashing light type signals, Standard No. 8, or the Standard No. 7 wigwags such as that now maintained at Solano Avenue one block to the north, would furnish better protection. It is my recommendation that if materials are available such a change in the type of signal be made.

It was also noted that view conditions to the railroad east could be improved by the removal of some bushes apparently growing on the railroad right-of-way between Marin Avenue and Solano Avenue. A red illuminated sign of the Albany Hospital located on the north side of Marin Avenue a short distance west of the crossing lowers the efficiency of any signal, and tends to divert the attention of drivers from the hazard of the railroad crossing. The possibility of eliminating this sign or changing the color should be given consideration.

While advance warning signs as required by Section 469 of the Vehicle Code are maintained by the City of Albany on the approaches to this crossing, it is believed that these signs would be more effective if they were of the reflectorized type set at a lower level. In connection with advance warning signs a survey was made of the other crossing in Albany and it was noted that the Marine Avenue crossing is the only one where the full comple-

## Community Chest Agency Allocations Explained

Distribution of Albany-Berkeley Community Chest funds for the current year reflects the effect of wartime conditions upon social welfare needs, it was reported today by G. Clifford Pettygrove, chest president, in announcing agency allocations.

Of the \$163,911 granted the 21 agencies of the Chest by the board of directors, \$115,014 goes to the 11 organizations serving youth. The latter received an increase of \$7,477 over 1944 because of the need for added emphasis on character-building and youth guidance activities for boys and girls, Pettygrove pointed out.

"An ounce of prevention is certainly worth a pound of cure in dealing with youth," Pettygrove stated. "For years the Community Chest has stressed the importance of such Chest agencies as Boy Scouts, Girl Scouts, Campfire Girls, Y.M.C.A. and Y.W.C.A., as well as agencies serving youth on the campus.

"These organizations have all geared their programs to today's conditions and are carrying on constructive activities to help build good citizens for tomorrow's world. The Chest provides funds for the bulk of this work, which cannot be self-supporting.

"Demands for child care, health and family welfare services have likewise increased due to the war. Conditions have brought many new problems which can be handled only by social agencies. A large increase in population, mass movements of people due to war work,

problems of service men and their families, all call for added services of these welfare organizations."

Such organizations as Travelers Aid Society, Legal Aid Society, Children's Hospital, Salvation Army, Visiting Nurse Association and others, have had increasingly heavy service loads. This called for additional funds, which the Chest was able to grant due to the success of last fall's War Chest campaign, in which the Community Chest shared, according to Pettygrove.

In reporting distribution of Chest funds, made on the basis of budget committee recommendations, Pettygrove stressed the fact that decisions were based upon careful studies of over-all community needs, agency services, and available funds. He added that provision has been made for adapting the use of funds during the year as new social needs may develop.

Members of the Chest budget committee were Kenneth D. McEwing, chairman; Superintendent of Albany Schools Paul Bryan; Ralph R. Eltse, Mrs. Frank N. Freeman, John Hink, Dr. Carl Lawrence, Mrs. Robert Lipman, H. N. McClellan, Don Martin, William H. Park, Elizabeth Perry, Mrs. Fitch Robertson, Brownlee Shirek, Mrs. T. D. Stewart, Clarence Wright and Bruce Zimmerman.

Information regarding agency budgets or other data may be obtained from the Chest office, 2073 Allston Way, according to Robert R. Porter, executive secretary.

## New Board of Directors Named

Seven prominent Berkeleyans have been named to the Board of Directors of the California War Chest, Inc., it was announced today by Ralph T. Fisher, President. Those elected are Clarence A. Bullwinkel, Martin Loch, Dr. Vere V. Loper, G. Clifford Pettygrove, Robert R. Porter, Dr. Robert Gordon Sproul and Ray B. Wiser.

Will F. Morrish, Berkeley resident and former local banker, was Chairman of the Nominating Committee. He served last year as Chairman of the Statewide Quota Committee. Fisher, an Oakland civic leader, was recently re-elected to serve a third year as President of the State Chest.

The statewide chest was organized in 1943 to coordinate the efforts of local community War Chests in raising funds for national causes, including USO, War Prisoners Aid, United Seamen's Service and war relief organizations. It is affiliated with the National War Fund, which shares in the money raised by the Berkeley-Albany-Kensington War Chest.

As members of the statewide governing board, Berkeley representatives will have a voice in determining policies of the California War Chest, according to President Fisher.

ment of such signs is provided. It is suggested that the city review this situation and replace the missing signs, if possible using those of the reflectorized type.

It is my suggestion that we furnish the railroad and the city copies of this memorandum, with the request that they give consideration to the recommendations and advise the Commission as to whether or not they put them in effect.

## Marin P.T.A. to Hold Yearly Election

## Public Service Group Organized

Albany's City Engineer Urie K. Gray has issued the following report on a recent meeting of Bay Area county officials:

"On April 25, 1945, a most auspicious date, in the City Hall of Oakland, was organized the 'Bay Counties Health and Safety Officials' whose membership includes, or at least can include, the Building Inspectors, Health Officers, Planning Officials, and Fire Chiefs of all the Bay Area Counties.

"The purpose of formation is to unify those Bay County officials whose duty it is to protect the public health and safety regarding structural features, sanitation and fire protection in and around buildings, into a deliberative body which will work for the common good of a district rather than merely for one governmental unit.

"A body which, by virtue of its background and training, can furnish hundreds of years of experience for the benefit of not one municipality but the entire Bay Area.

"By inviting any and all Supervisors, Councilmen, City Managers, Senators and Assemblymen who may care to sit in at any meetings it is hoped to create a better understanding of health and safety problems among the members of governing bodies and make easier the passage of modern and sensible legislation and the repeal of outmoded and anachronistic laws.

"It is the belief of the conference that the days of isolated codes are past and that a union of all the Bay Counties in procedure and adaptation is in order. To that end the B.C.H.S.O. are going to lend their best efforts.

"At this initial meeting were represented, Oakland, San Francisco, Berkeley, Albany, El Cerrito, Piedmont, Emeryville, San Leandro, Alameda, Burlingame, Martinez, Vallejo and Sonoma County.

"It is hoped and expected that as it grows in size and prominence the B.C.H.S.O. will be able to wield a tremendous power for good in its particular field.

"U. R. GREY,  
"City Engineer."

This newly inaugurated Berkeley Civilian Blood Typing Service at the Berkeley Hospital, now still in its early weeks, is already accomplishing all the above mentioned objectives simply by freely blood typing local people. Scores of Berkeleyans are now coming in each day.

# 3 YEARS AHEAD

## B.F. Goodrich

### Silvertown

This is the tire that's backed by 3 years' extra experience. 3 years before any other manufacturer, B.F. Goodrich sold tires containing synthetic rubber to American car owners. These tires have proved their superiority in the now famous 80 million mile road test... proved the value of this extra experience. And they have other "extras" too...:

- FULL PRE-WAR TREAD THICKNESS
- 28% STRONGER CORD CONSTRUCTION
- 30% MORE RUBBER BETWEEN PLIES

Made with Durex, the "tire vitamin" that fights wear, provides long, safe mileage.

Cord better than pre-war, makes plies stronger and tire safer.

Reduces stress between cords — gives added blow-out protection.

CAUTION: There aren't enough new tires for all who are eligible. Take care of your present tires and make them last. If you must have a new tire, be sure it's a B.F. Goodrich Silvertown.

6:00-16 \$16.05 PLUS TAX (with your old tire)

**B.F. Goodrich** *Glasstex Batteries*

A battery needs extra punch these days of short trips—and this battery has it! Special glass mats shield the plates—keep them active longer! If your battery is old and weak—don't delay. Replace it with a power-packed Glasstex now.
